MAGPIES KILL CATTLE ON RANCH IN ELKO COUNTY

C. H. Black of Starr Valley was late this year in branding his calves and the brands did not heal as rapidly as usual. Some weeks ago he found several animals and on investigation found them dead in the lower part of the ranch, killed by the magpies picking at the raw wounds until great holes were eaten in the animal's flank. There was a flock of the birds that followed the cuts all day long, and wherever one of the animals had a wound that the birds could get at they would light on his back and tear out chunks of flesh from the wound. There was no way in which the cuts could escape the birds, and they gradually grew weaker and weaker until death put an end to their misery.—Elko Free Press.

VALUE OF MARK STOPS BUSINESS

(Correspondence of Associated Press.)
COBLENZ, Dec. 15.—Fluctuations in the value of the mark recently have been so violent that German business men report that it is virtually impossible for them to carry on transactions with the outside world. Merchants contend that it is no longer a matter of business but simply one of gambling on the exchange. Various suggestions have been made by financiers and others in Germany to remedy the situation, but as yet nothing of practical import has been formulated. One suggestion being considered by bankers is that goods be bought and sold to have chiefly value in the exchange situation. The present low value of the mark has placed a very effective embargo on export attempts to escape taxation by fleeing the country. It has also automatically put off importation of articles absolutely indispensable. Foreign buyers, taking advantage of the favorable rate of exchange have recently placed large orders with many German factory owners.

GUS ANDERSON PASSES AWAY

August Anderson died Sunday morning at 12:45 at his home at 617 Central street, where his passing moments were softened by the presence of his wife and young daughter. Mr. Anderson was one of the best known miners in the Tonopah and Goldfield districts, where he had been employed for the past thirteen years in various capacities. For eight years of that time he worked for the Belmont and was considered one of their most reliable men. He contracted asthma while working in a wet drift and this induced complications from which he passed away.

Mr. Anderson was born in Sweden July 1864 and was trained as a cabinet maker and came to this country when only 20 years of age, settling in Kansas and working in adjacent states before settling down at Wallace, Kans. where he became affiliated with the P. & A. M. lodge of that city which he maintained his standing to the end. He removed to Victor in the Cripple Creek district in 1894, and was married to Miss Anna Oederstrom in Colorado Springs. The funeral will take place tomorrow afternoon under the auspices of Tonopah lodge P. & A. M. followed by interment in the local cemetery.

The deceased went to the southern coast last summer in the hope that the change would benefit his health and returned in October. He was preparing to remove to the vicinity of Lake Mead to escape the rigorous winter of this altitude when death intervened. Survivors are the widow and daughter, Dorothy, aged 10, who is in the first year of high school. Mrs. Anderson, who is well known in Tonopah has the sympathy of an extensive circle of acquaintances.

FAIR PRICES ARE VERY UNFAIR TO RETAIL STORES

(By Associated Press.)
CHICAGO, Jan. 5.—Investigation of the "fair prices" list for clothing issued by the Illinois fair price committee and which out of town merchants declare is lower than the wholesale price, has revealed a business deal whereby leading Chicago department stores did a rushing business in the cheaper grades of clothing bought six months ago or more.
